Thursday 18. 9. 2008

To Anna Burke
Federal Member
For Chisholm.

Dear Anna.

I believe your government is asserting, the tax system, and pensions ?? (maybe other?).

What does this mean? Does it mean the tax, needs a review of what taxes should be used for?

I would like to suggest, a review of the tax payer costs of, all Parliamentary Liquour supplies, at all Parliaments, state and Federal.

If, drinks are required during work time, the purchase should be made with the members own money.

The liquour purchases are certainly not \$6 bottles from the supermarket.!

This cost to the taxpayers must be very large indeed especially when many people are not drinkers. Why should we pay for this luxury?

So many more things need to be dealt with, with my (our) taxes and this is only the tip of the iceberg.

I'm sorry to nit-pick. But I feel quite strongly about what peoples taxes are actually used for.?

a. m. Flanagan (Mrs)
(Anne)
