

How dumb is payroll tax!

Our little company has been so successful we now have to pay payroll tax. This honor is due the fact we have employed more people and they are earning good money. How dumb can you get; a tax on employment. I can assure the state and federal governments we will not be employing anymore people in Australia. We will also be questioning very hard any future pay rises and benefits for our employees.

I thought the GST was brought in to get rid of all these idiotic impositions.
