

Dear Sir,

This is the first time I have ever written either about our tax system, or to an MP, but I am concerned about the future of my retirement savings in an SMSF.

I understand that the Henry tax review is considering removing or changing the dividend imputation scheme, which will probably negatively impact on the value of Australian companies who provide me with income and franking credits. I will be retiring soon, and will depend on this dividend income on retirement.

I hope you will be re-considering this proposal, as otherwise I am sure many of us will review our votes at the next election.

Yours sincerely,

Christine Clayton.
