Australia's Future Tax System Review.

Dear Sir/Madam

I am retired for [removed for privacy reasons] years and have a self-managed superannuation fund.

Its value has declined so much that it is now less than the upper limit applied by Centrelink. I have seven companies in the fund and six of them have 100% franking. The existing arrangements encourage me to invest in Australian companies and the dividends through imputation help the income stream. I urge you not to remove or reduce the existing dividend scheme.

Yours truly,
Maurice B Lane
