

I am writing to register my grave concerns regarding the Tax Review.

I am a user of a Self-Managed Superannuation Fund. I believe the tax` system should be supporting self reliance in retirement saving and therefore supporting the choice and competition that SMSF's bring to Australia's superannuation system.

I am greatly concerned at reports that the Henry Tax Review is considering recommendations to remove or change the dividend imputation scheme. The current scheme helps my desire to invest in Australian Companies. I believe a removal or change to the scheme is unfair, unnecessary and a retrograde step. I am greatly concerned that this will negatively impact the value of Australian companies I am invested in who provide me dividend income that includes franking credits.

I am writing to highlight my concern for Australian investors who rely on dividend income, especially retirees.

I regard the issue serious enough to affect my voting decision at the next Federal Election
