

AFTSubmissions,

I am the user of a Self-Managed Superannuation Fund. I believe the tax system should be supporting self-reliance in retirement saving and therefore supporting the choice and competition that SMSF's bring to Australia's superannuation system.

I am greatly concerned at reports that the Henry Tax Review is considering recommendations to remove or change the dividend imputation scheme. The current scheme helps to support my desire to invest in Australian companies. I believe a removal or change to the scheme is an unfair, unnecessary retrograde step. I am greatly concerned that it will negatively impact the value of Australian companies I am invested in who provide me dividend income that includes franking credits.

I am writing to highlight my concern for Australian investors who rely on dividend income, especially retirees, of which I am one.
