

Dear Sirs,

We are writing to highlight our concern for Australian investors who rely on dividend income, especially retirees.

We are the users of a Self-Managed Superannuation Fund. We believe the tax system should be supporting self-reliance in retirement saving and therefore, supporting the choice and competition that SMSF's bring to Australia's superannuation system.

We are greatly concerned at reports that the Henry Tax Review is considering recommendations to remove or change the dividend imputation scheme. The current scheme helps to support your desire to invest in Australian companies.

We believe a removal or change to the scheme is an unfair, unnecessary and retrograde step. We are greatly concerned that it will negatively impact the value of Australian companies we are invested in who provide us a dividend income that include franking credits.

We regard the issue as serious enough to affect your voting decision at the next Federal Election.

Yours sincerely,
Mr J.F. Overeem
Mrs J.M. Overeem
