

Dear Sir/Madam

As a retiree and a user of a Self Managed Superannuation Fund to provide my retirement income, I am writing to express my concern regarding the reports that the Henry Tax Review is considering recommendations to remove or change Australia's dividend imputation or franking credit scheme.

I am concerned that the change will negatively impact on the Australian companies I am invested in which provide me with dividend income including franking credits. The change may also have the effect of making investment in Australian companies less attractive to investors.

Yours faithfully

Ms Shirley Walker
