

## Australian Future Tax System Review

I am writing to you about the concerns I have with the direction being taken by the Australian Future Tax System Review and the possible harmful impacts this may have on my retirement savings.

I would like to emphasise the following points:

- I am the user of a Self Managed Superannuation Fund (SMSF). I believe the tax system should be supporting self reliance in retirement saving and therefore supporting the choice and competition that SMSFs bring to Australia's superannuation system.
- I am greatly concerned at reports that the Henry Tax Review is considering recommendations to remove or change the dividend imputation scheme. The current scheme helps to support my desire to invest in Australian companies. I believe a removal or change to the scheme is an unfair, unnecessary and retrograde step. I am greatly concerned that it will negatively impact the value of Australian companies I am invested in who provide me with dividend income that include franking credits.
- I am writing to highlight my concern for Australian investors who rely on dividend income, especially retirees.
- I regard this issue as serious enough to effect my voting decision at the next Federal Election.

Yours sincerely

Marietta Zentai
