

To whom it may concern:

I strongly urge you to support the important CTDL tax.  
This Tobin Tax (proposed by Nobel Prize winning economist James Tobin) has the potential to be an excellent tax incentive to the stability economy

I also urge you to reverse the recent trend for lowering corporate and personal income taxes for the rich, at the expense of the "working families" of Australia.

I further urge you to negotiate with state governments to determine motor vehicle taxes based on the environmental impacts of the vehicles. You have the ability to promote dramatic improvements in the transportation sector.

I support all moves that you might take to prevent the wealthiest, who can afford skilled Accountants, from avoiding taxation through offshore holdings and a myriad of other avoidance strategies of which I'm sure you are well aware. Please make the system fair!

You know within yourselves that this is not just a job, but an opportunity to make a fairer and progressive society. Please harness this opportunity for the good of the nation and the future.

Kindest regards,

Alex.
