

I urge the Australian Government to take the following steps:

Support the international implementation of the Currency Transaction Development Levy

Reverse the trend to lower corporate tax , and personal tax particularly at the higher end of the income scale in order to spread the tax burden more equitably...the more you earn, the more you pay

Prevent wealthy Australians from using tax havens to avoid their responsibilities.

Simplify the tax system to reduce the loopholes available to Australians with money and clever accountants

Please take this opportunity to review Australia's tax system to make it fair

Thank you
