

Dear folk,

I urge the Review to:

- advocate for international implementation of the proposed Currency Transaction Development Levy (CTDL) to both calm currency speculation and raise monies for climate change prevention/mitigation and for development assistance;
- advocate internationally for multilateral action to stamp out tax havens;
- use the income tax system in Australia to promote greater income equality through more progressive tax scales and more effective redistributive policies;
- resist the pressure to lower corporate income taxes and remove the range of tax lurks which selectively benefit the rich (big cars less tax, more kilometers less tax, more superannuation less tax, etc);
- tax alcoholic beverages according to alcohol content;
- link sales tax on motor vehicles to the energy efficiency of the vehicle;
- stop wealthy Australians from using tax havens to avoid their responsibilities and

Yours sincerely,

David Legge
