

The Treasurer,

Dear Sir,

It has been a big concern of mine for a long time, that our currency is exposed to international speculators. Please introduce a Tobin Tax, or a Currency Transaction Development Levy, whichever Australia can do on its own, to curb speculative currency transactions.

I am also concerned about the fact that wealthy Australians can use tax havens to avoid or minimising their tax responsibilities. These loop holes should be stopkped immediately.

Yours sincerely,
Dieter Tieman,
