

Dear Sir/ Madam,

I am sick of the erosion of democracy and the relentless development of a new feudalism.

Please consider these ideas:

The ATO should PUBLICLY LIST the amount of tax paid by every business, and the no of full time jobs it provides.

Support the Currency Transaction Development Levy.

No more tax cuts – no more handouts to the rich.

Tax incentives for carbon efficient vehicles/ products.

Tax incentives to reduce excessive packaging.

Stamp out tax havens.

Support co-operatives – encourage self-sufficiency, empower the people, discourage dependency – on government or anything else.

STOP SELLING THE FARM!

STOP PRIVATIZING !

Yours Sincerely, Eva Hagstrom
