

In your review of the Australian Taxation System I ask that serious consideration be given to the following suggestions:

-support for the international implementation of the Currency Transaction Development Levy (CTDL) that would tax the trade in foreign exchange

-reversal of the trend to lower corporate and personal income taxes to help finance a more just society

-revamp motor vehicle taxes and charges at State and Federal levels so that in future the rate depends on fuel consumption and the amount of carbon emitted from exhausts

-simplify the taxation system and ensure that ALL Australians meet their responsibilities

Yours faithfully,

Geoffrey Harris
