

I would like to make the following submission on these points -

\* I urge Australian Government support for international implementation of the Currency Transaction Development Levy (CTDL) that would tax the richest market of all, the trade in foreign exchange, worth a staggering \$3,200 billion daily.

\* I urge a reversal of the trend to lower corporate and personal income taxes, a trend that has benefited the rich at the expense of the poor over the past decade.

\* The German Government has decided to revamp its motor vehicle tax so that in future the rate depends on the amount of carbon emitted from exhausts. I urge the taxation review to recommend the Australian Government negotiate a similar arrangement with the States.

\* I urge the Australian Government to do more to stop wealthy Australians from using tax havens to avoid their responsibilities.

\* Please refer the Review Panel to the October NI Magazine for further background, I also recommend NI's special tax justice blog.

Regards,

Gillian Saunders
