

Dear Treasury

I am writing this submission regarding the tax review to stress the importance of implementing the Currency Transaction Development Levy (CTDL) on the trade in foreign exchange. I also urge the government to avoid lowering corporate and personal income taxes as this only serves to widen the gap between rich and poor.

I believe Australia should follow the German example of linking the rate of motor vehicle tax to carbon emissions from exhausts. And finally, I urge the Australian Government to do more to stop wealthy Australians from using tax havens to avoid their responsibilities.

Regards

Jeanne Smith
