

As a supporter of the New Internationalist, it has come to my attention the injustices currently occurring within our system of taxation. I urge you to consider the following issues:

Urge Australian Government

support for international implementation of the Currency Transaction Development Levy (CTDL) that would tax the richest market of all, the trade in foreign exchange, worth a staggering \$3,200 billion daily. Urge a reversal of the trend to lower corporate and personal income taxes, a trend that has benefited the rich at the expense of the poor over the past decade. The German

Government has decided to revamp its motor vehicle tax so that in future the rate depends on the amount of carbon emitted from exhausts.

Urge the taxation review to recommend the Australian Government negotiate a similar arrangement with the States. Urge the Australian Government to do more to stop wealthy Australians from using tax havens to avoid their responsibilities.
