

Please support international implementation of the Currency Transaction Development Levy (CTDL) that would tax the trade in foreign exchange.

Reverse the trend to lower corporate and personal income taxes, a trend that has benefited the rich at the expense of the poor over the past decade.

The German Government has decided to revamp its motor vehicle tax so that in future the rate depends on the amount of carbon emitted from exhausts. I would like the Australian Government to negotiate a similar arrangement with the States.

Please make as much effort as possible to stop wealthy Australians from using tax havens to avoid their responsibilities.

Thanks

Lincoln Kern
