

Dear Australian Government,

My name is Marijana Mihaljevic and I work as an optometrist in Western Australia.

I urge You to support the international implementation of the Currency Transaction Development Levy.

It would also be terrific if there was a reversal of the trend to lower corporate taxes.

The German government places the magnitude of motor vehicle tax in accordance with the amount of carbon emitted from exhausts. A very good idea, ie the more a car's carbon emission, the higher the motor vehicle tax.

Most importantly, I urge You to do more to stop wealthy Australians from using tax havens to avoid their responsibilities.

I pay approx \$40000 in tax a year and I have absolutely no problem with it.

LONG LIVE AUSTRALIA!!! XOXOX
