## Future Tax System

Dear Sir

Instead of those people who earn (Salary & Wages) 30% of the gross income paying 70% of the tax and those companies who earn 70% of the gross income and paying 30% of the tax perhaps it could be made more equitable.

20% GST on all goods except food, hospital, medical and dental care.

Flat rate of tax 20% over a figure to be decided

Make those people who now earn \$200,000,000 and pay \$34 tax pay their share

Here's hoping

Yours faithfully

Neal Williams
