

Hi,

I have some tax pointers that are worth considering. Let's shake things up & make them better!

We need support for international implementation of the Currency Transaction Development Levy (CTDL).

Reversal of the trend to lower corporate and personal income taxes, a trend that has benefited the rich at the expense of the poor over the past decade.

The German Government has decided to revamp its motor vehicle tax so that in future the rate depends on the amount of carbon emitted from exhausts. The Australian Government negotiate a similar arrangement with the States.

Do more to stop wealthy Australians from using tax havens to avoid their responsibilities.

Thank you, P. Hodgson
